# About

## Who we are

At **Splenvo**, we go beyond aesthetics—we design with purpose. As an experienced team of UX/UI designers, developers, and brand strategists, we craft high-impact digital solutions that empower businesses and organisations worldwide. Our expertise spans from branding and web development to advanced interaction design and scalable UI systems. Whether you're a startup, a nonprofit, or a global enterprise, we tailor our approach to your unique challenges, ensuring long-term success.

With years of experience in the industry, we've collaborated with diverse clients—from government bodies and global corporations to innovative startups and small businesses. We understand the nuances of design and technology, and we take pride in delivering solutions that are both visually stunning and functionally robust.

- Web/App Development
- Software UX Consultancy
- Front-end Development
- CMS Development & Customisation

# Core Values

## Our non-negotiable aims

At Splenvo, we don't just design—we solve problems, build brands, and drive business growth. Let's create something exceptional together.

### **People First**

We put our clients, users, and team members at the center of everything we do.

### **Integrity**

We act with the highest integrity, ethics, and professionalism, building trust between our clients and team members.

### **Goal Centered**

We are committed to helping our clients achieve their goals through user-centered design solutions that create lasting impact.

### **Quality**

We provide outstanding quality in everything we do, from the quality of our work to the level of service we offer.

# Our Clients

Our clients trust us to provide not only design but strategic guidance that aligns with their long-term goals.

# Our Clients

---

## Small Businesses

Your vision, our expertise. We develop everything from websites and mobile applications to software solutions. No matter your budget, we find practical and scalable solutions that help your business grow.

---

## Social Justice and Local Charities

We believe in supporting those who make a difference. With extensive experience in nonprofit projects, we provide cost-effective design solutions that amplify your impact. Our consultants work closely with you to understand your needs and deliver results that align with your mission.

---

## Startups / Scaleups

Hiring an in-house designer can be expensive and time-consuming. Instead, work with our senior designers on a flexible basis—pay for only the hours you need while getting world-class design expertise without the hiring hassle.

---

## Global Organisations & Government Bodies

We've worked with international organisations and government agencies, providing scalable, high-security design solutions. Our services include full documentation, compliance-driven UX, and lifetime maintenance options tailored to institutional needs.

# Our Services

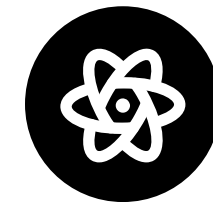

Date Visualisation - We specialise in turning complex data into clear, engaging visuals that drive better decision-making.

## Website Development

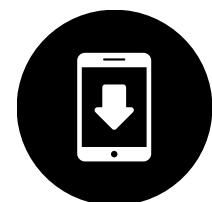

Custom, high-performance websites tailored to your business.

- Platforms We use - Drupal, Wordpress, Webflow, Framer

## Branding & Identity Design

Crafting visual identities that leave a lasting impression.

## Application Design & Development

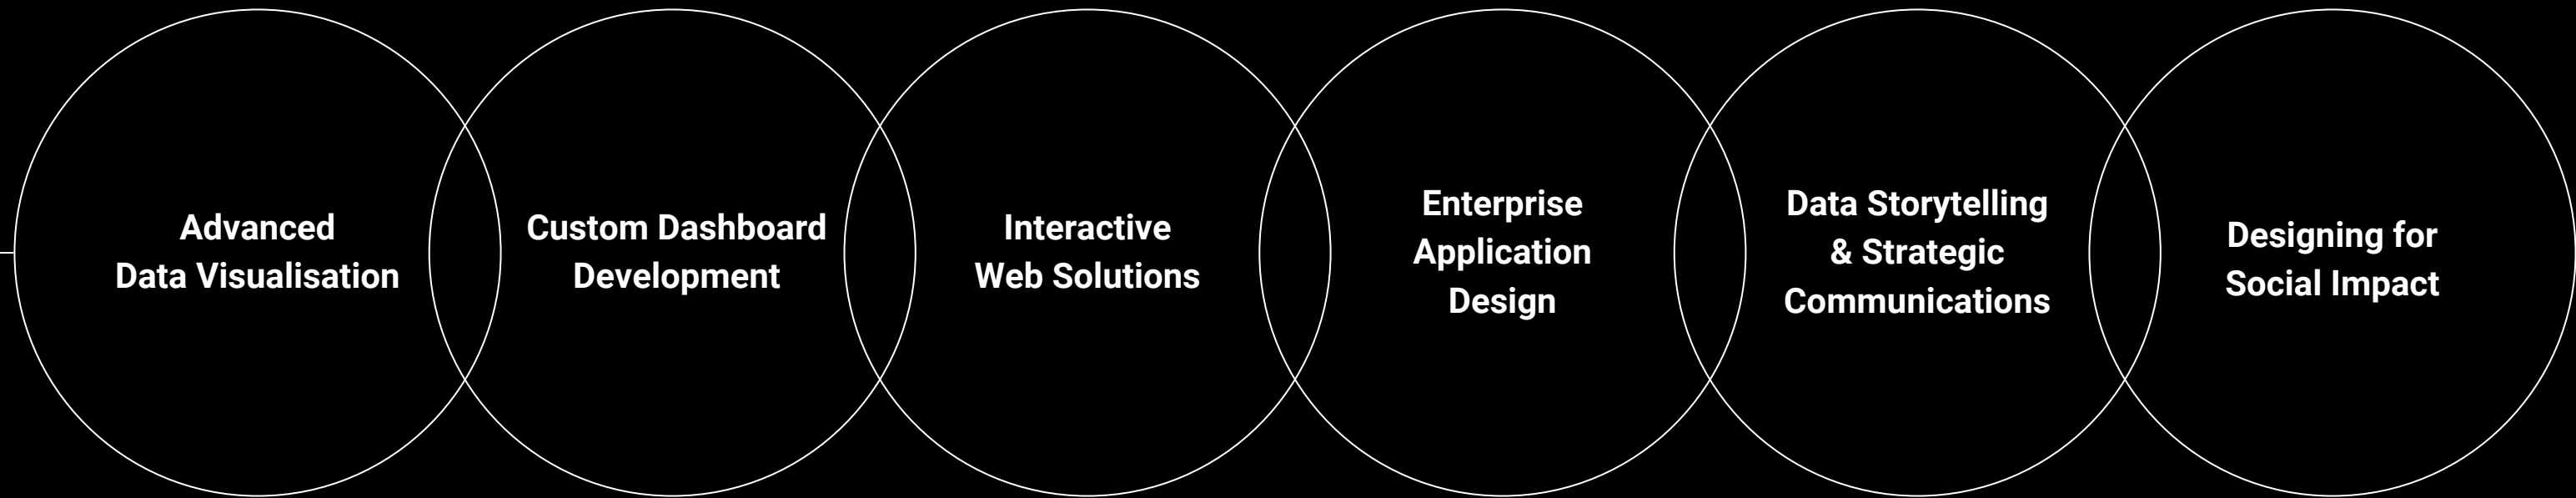

Seamless and intuitive mobile & web apps.

## E-commerce Solutions

Optimised online stores with user-friendly experiences.

# Our Services

# Advanced Data Visualisation

We transform complex data into clear, intuitive visual formats. From brand-aligned charts to interactive infographics and trend analysis, our visuals help communicate insights with clarity and impact.

Transform complex datasets into intuitive, actionable visual narratives

Custom chart and graph design tailored to your specific data stories

Interactive infographics that engage and inform your audience

Time-series visualisations and trend analysis representations

Comparative data visualisation for benchmarking and performance analysis

Geographic and spatial data mapping solutions

# Custom Dashboard Development

We design bespoke dashboards tailored to user needs and business contexts. With a focus on clarity, usability, and cross-device consistency, we deliver dashboards that make data truly accessible.

- 1 **Executive dashboards** for C-suite decision-making
- 2 **Operational dashboards** for real-time business monitoring
- 3 **Operational dashboards** for real-time business monitoring
- 4 **Analytical dashboards** for deep data exploration
- 5 **KPI-focused dashboards** with alert systems and thresholds
- 6 **Multi-platform** dashboard solutions (desktop, tablet, mobile)
- 7 **Integration** with existing **business intelligence** systems

# Interactive Web Solutions

We create data-driven web experiences that are both engaging and informative. From exploratory visual tools to responsive, user-centred interfaces, we design with both form and function in mind.

Data-driven websites with embedded visualization components

Interactive data exploration tools for public-facing websites

User-centric interfaces designed for optimal data comprehension

Responsive web design for cross-device compatibility

SEO-optimized data visualization content

Analytics integration for measuring user engagement

## Enterprise Application Design

We develop user-friendly applications that support enterprise-level data use and decision-making. Our solutions simplify complex systems through thoughtful UX and streamlined information architecture.

# Data Storytelling & Strategic Communications

We craft compelling, narrative-led communications powered by data. Whether for reports, presentations or campaigns, we create visual languages that align with your brand and resonate with your audience.

Narrative-driven data presentations for stakeholders

Annual report and investor presentation visualizations

Marketing campaign performance visualization

Brand-aligned visual data language development

Training and knowledge transfer for internal teams

Communication strategy for data-driven initiatives

# Designing for Social Impact

Creating websites that amplify your mission and drive positive change. We design with purpose, ensuring your values are at the heart of every digital experience.

## Content Management System

Easily manage and update your website with a user-friendly CMS —no technical skills required.

## Online Donation System

Enable secure, seamless donations to support your cause with confidence.

## Multi-language Support

Deliver your message globally by offering content in multiple languages.

## SEO Optimisation

Improve search engine visibility and attract more visitors with tailored SEO strategies.

## Accessible Design

Ensure inclusive access with designs that support users of all abilities.

# Case Study

**Responsive Website** 20

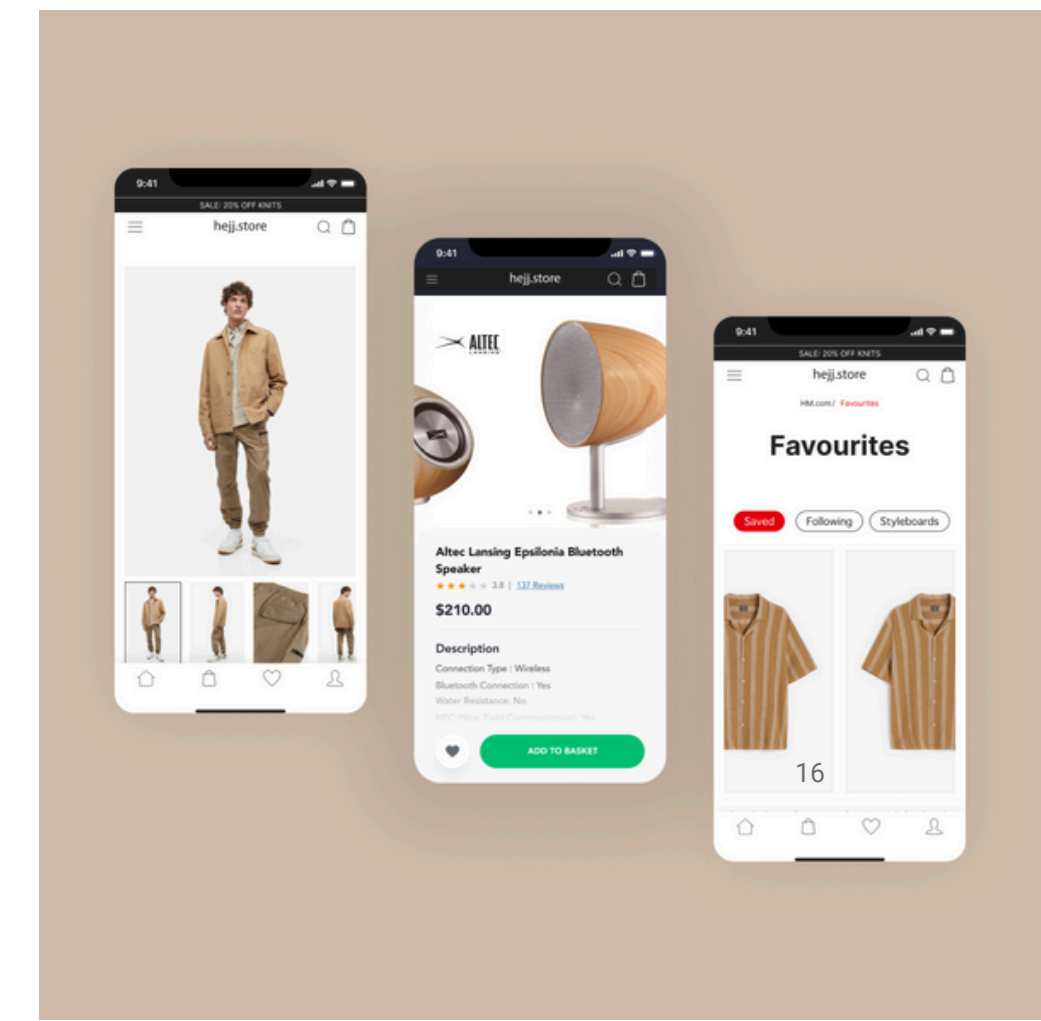

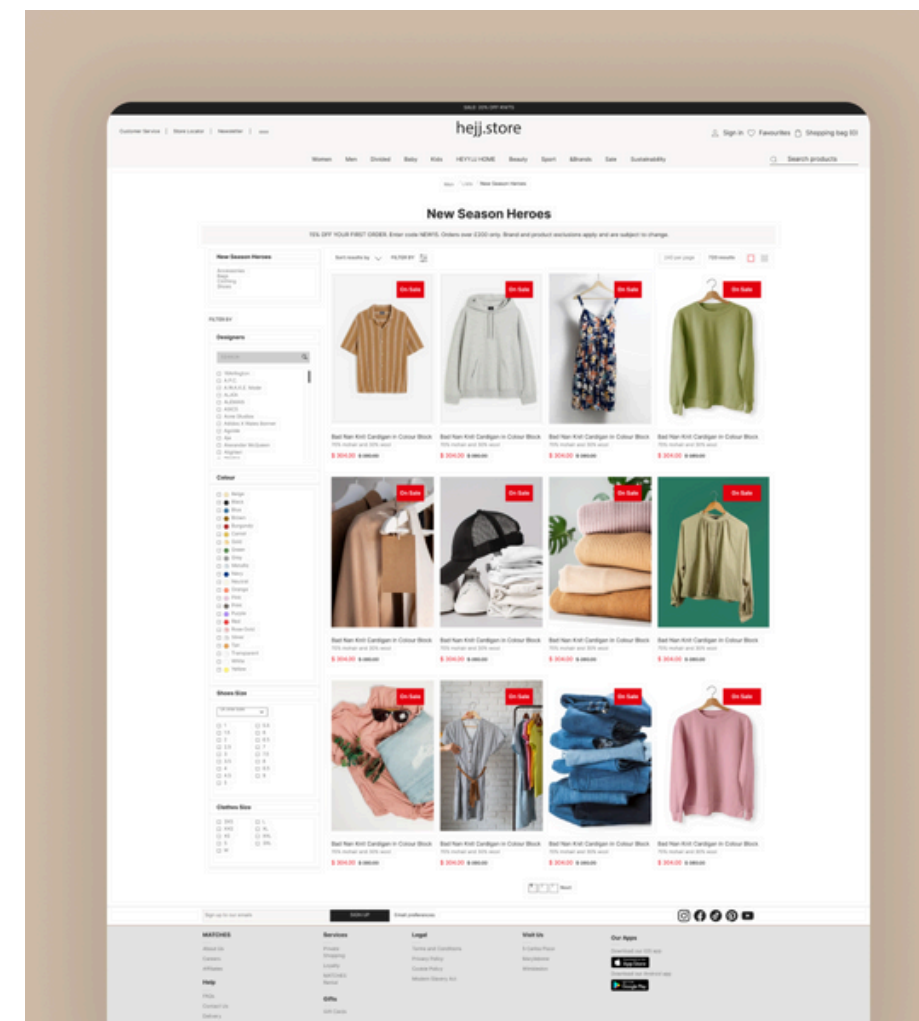

# E-commerce

HeJJ

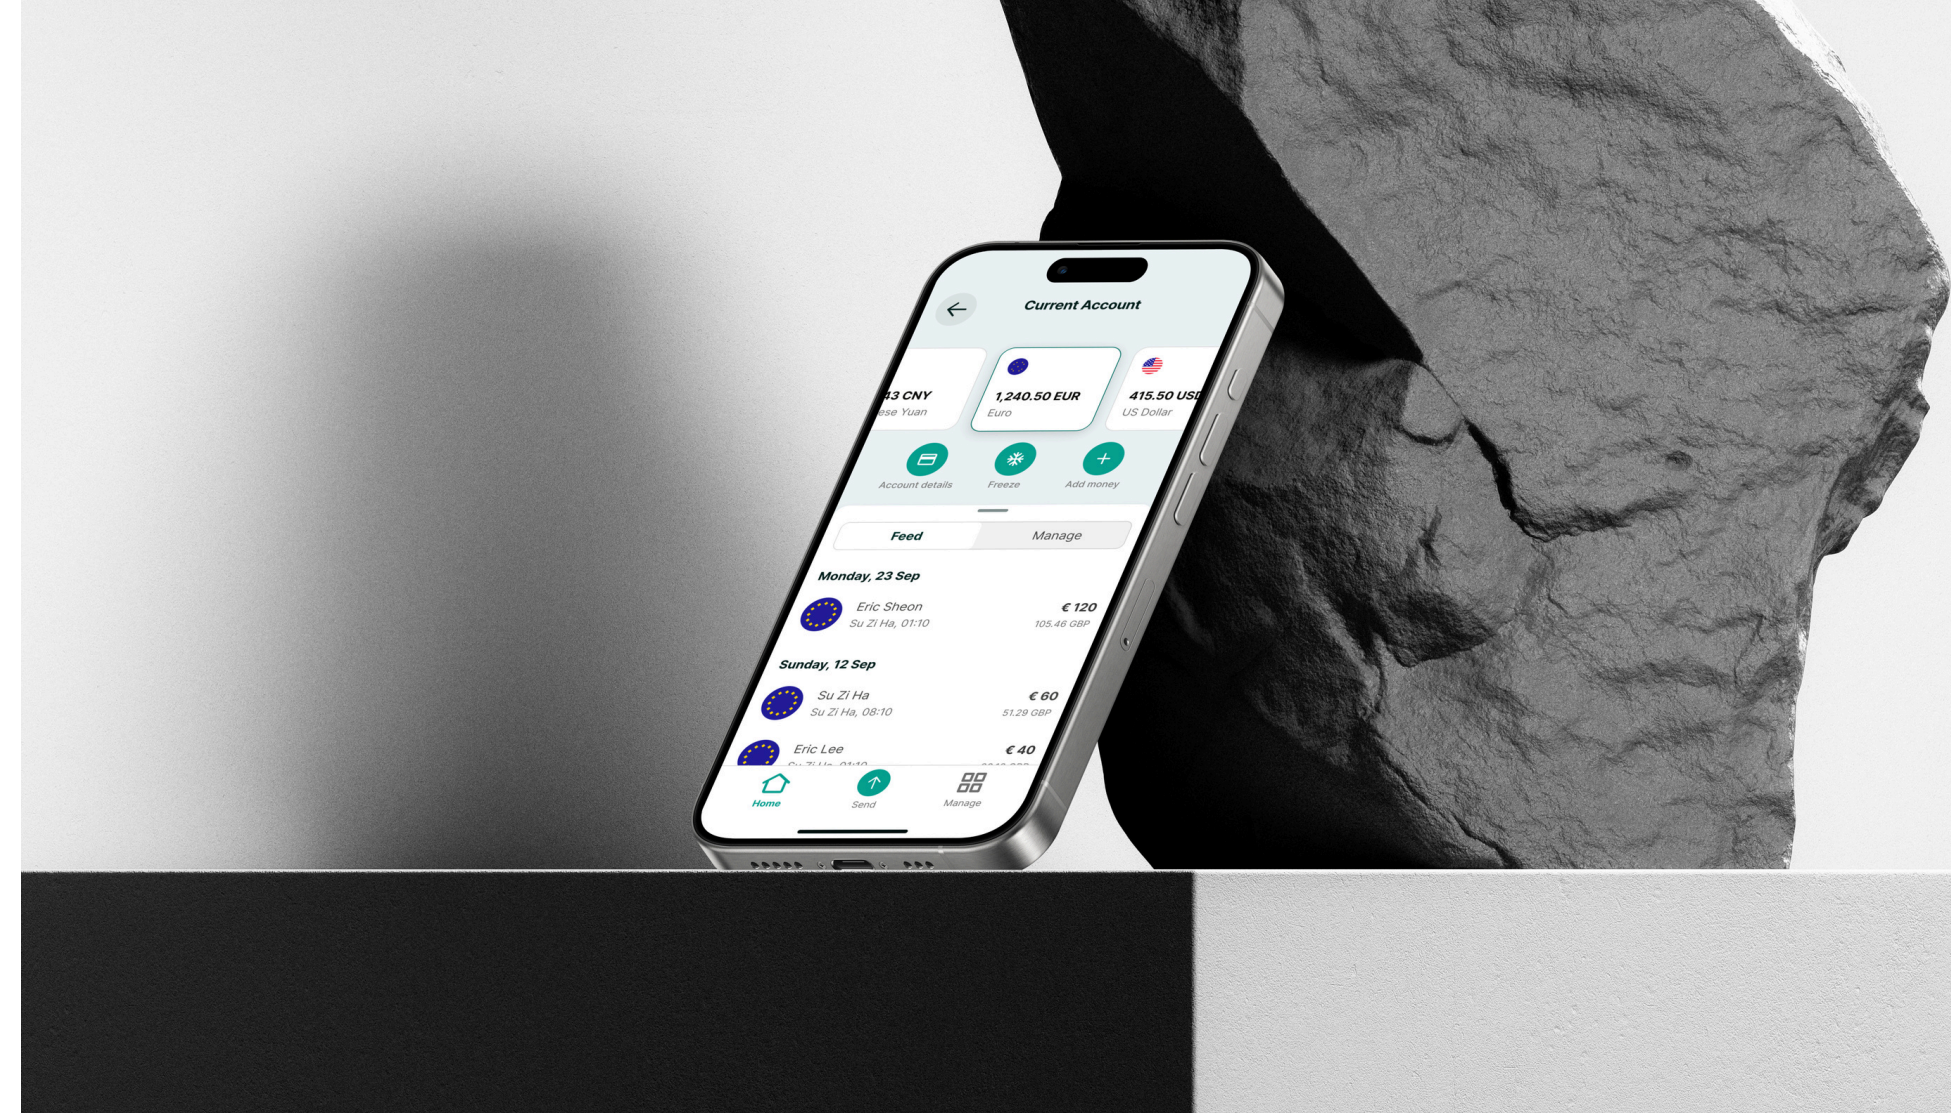

Featuring a variety of images, this platform is an engaging fashion hub that captivates users both visually and informatively. Visually appealing content that stimulates the desire to purchase, combined with well-structured information, quickly grabs users' attention. The purchasing process is also designed to be simple, ensuring a seamless shopping experience. As a result, users are more likely to return to our website.

# Fintech Mobile

JB Bank

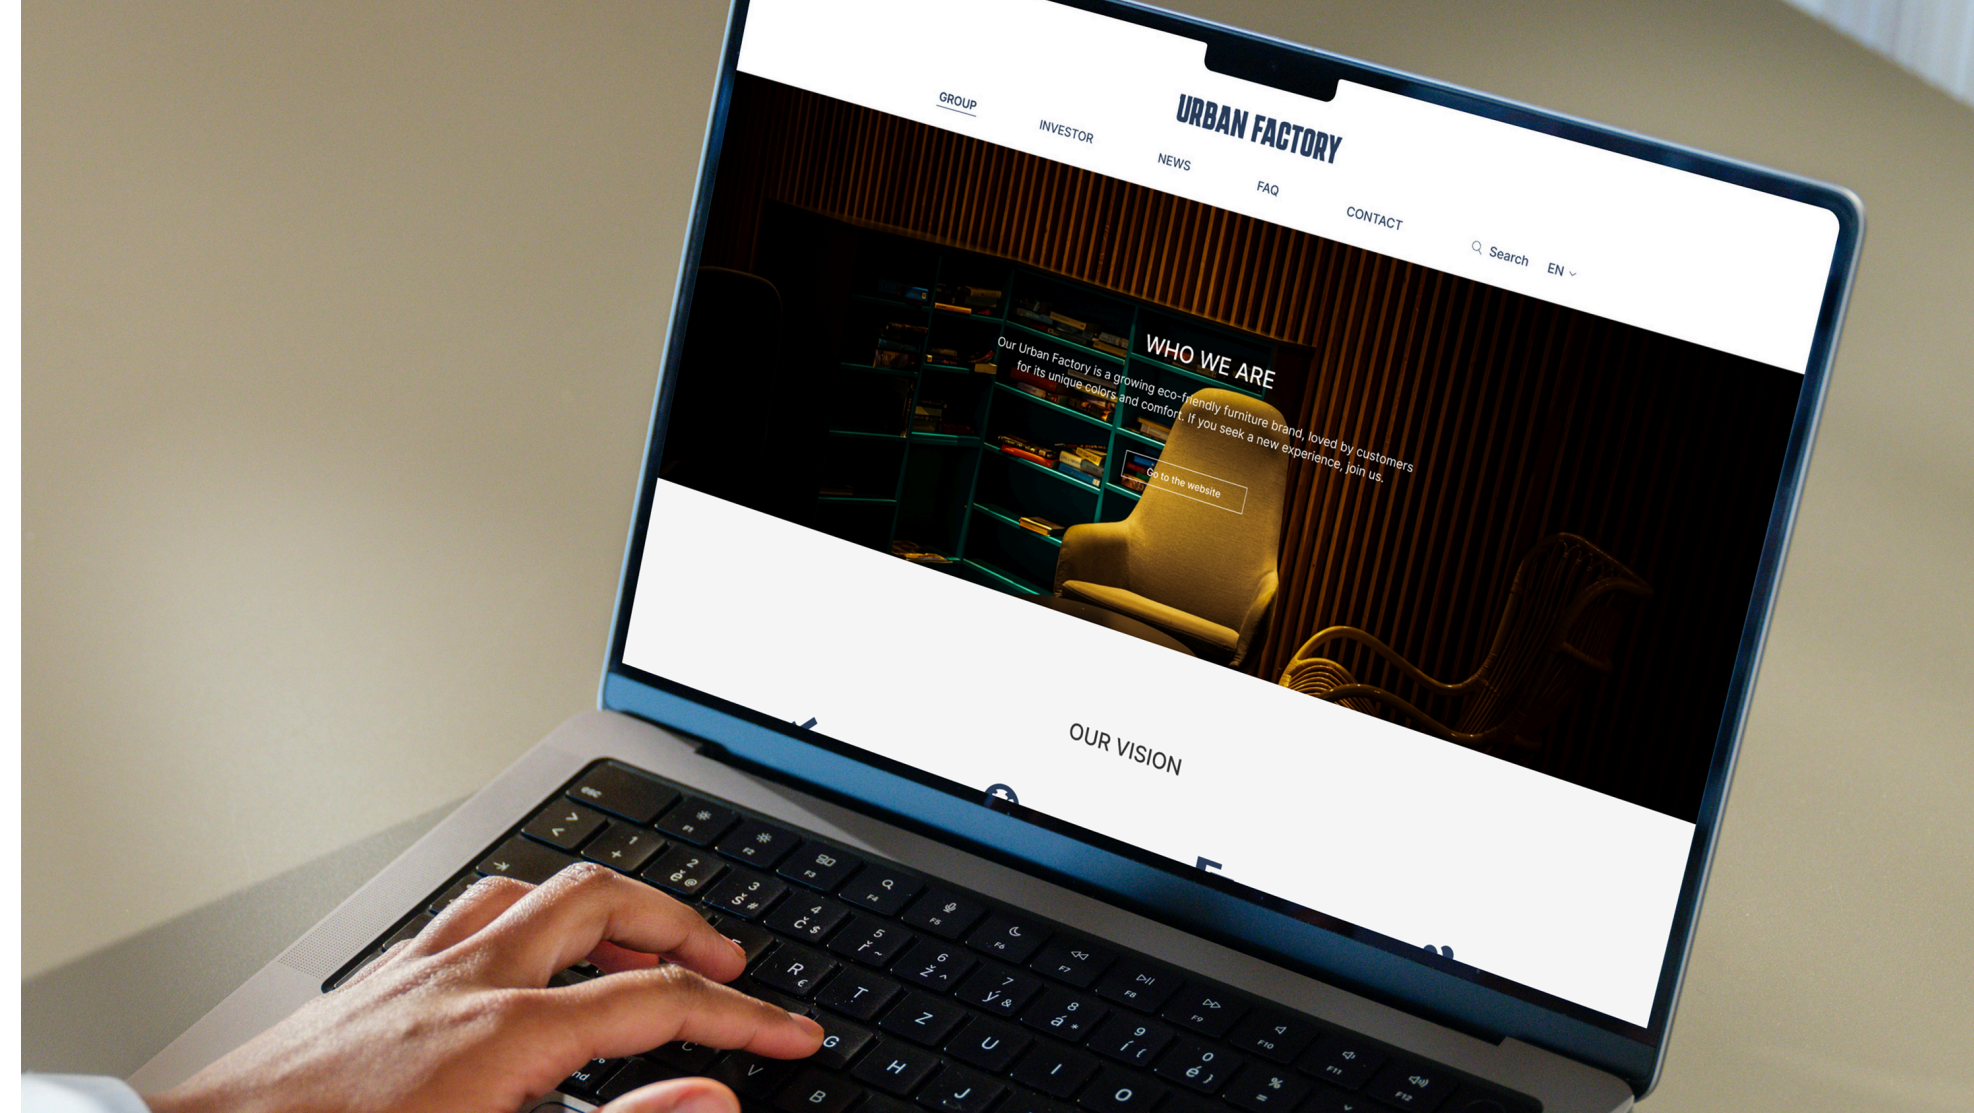

This website operates within the ever-evolving FinTech industry. As it involves mobile banking, the app's design is highly user-friendly. This service offers convenience to users living abroad who need to send money to their home countries. With our mobile app, users can easily transfer or top up funds without visiting a bank or dealing with complex procedures.

# IR Website

Urban Factory

An IR website is designed to attract company investments and provide information to specific users. It features numerous graphs and tables that illustrate the company's growth rate and performance. Investors can quickly find the information they need on the main page or in clearly visible sections without navigating through multiple steps. Understanding the clear intent of visitors highlights the need for a precise design, and our website is built accordingly.

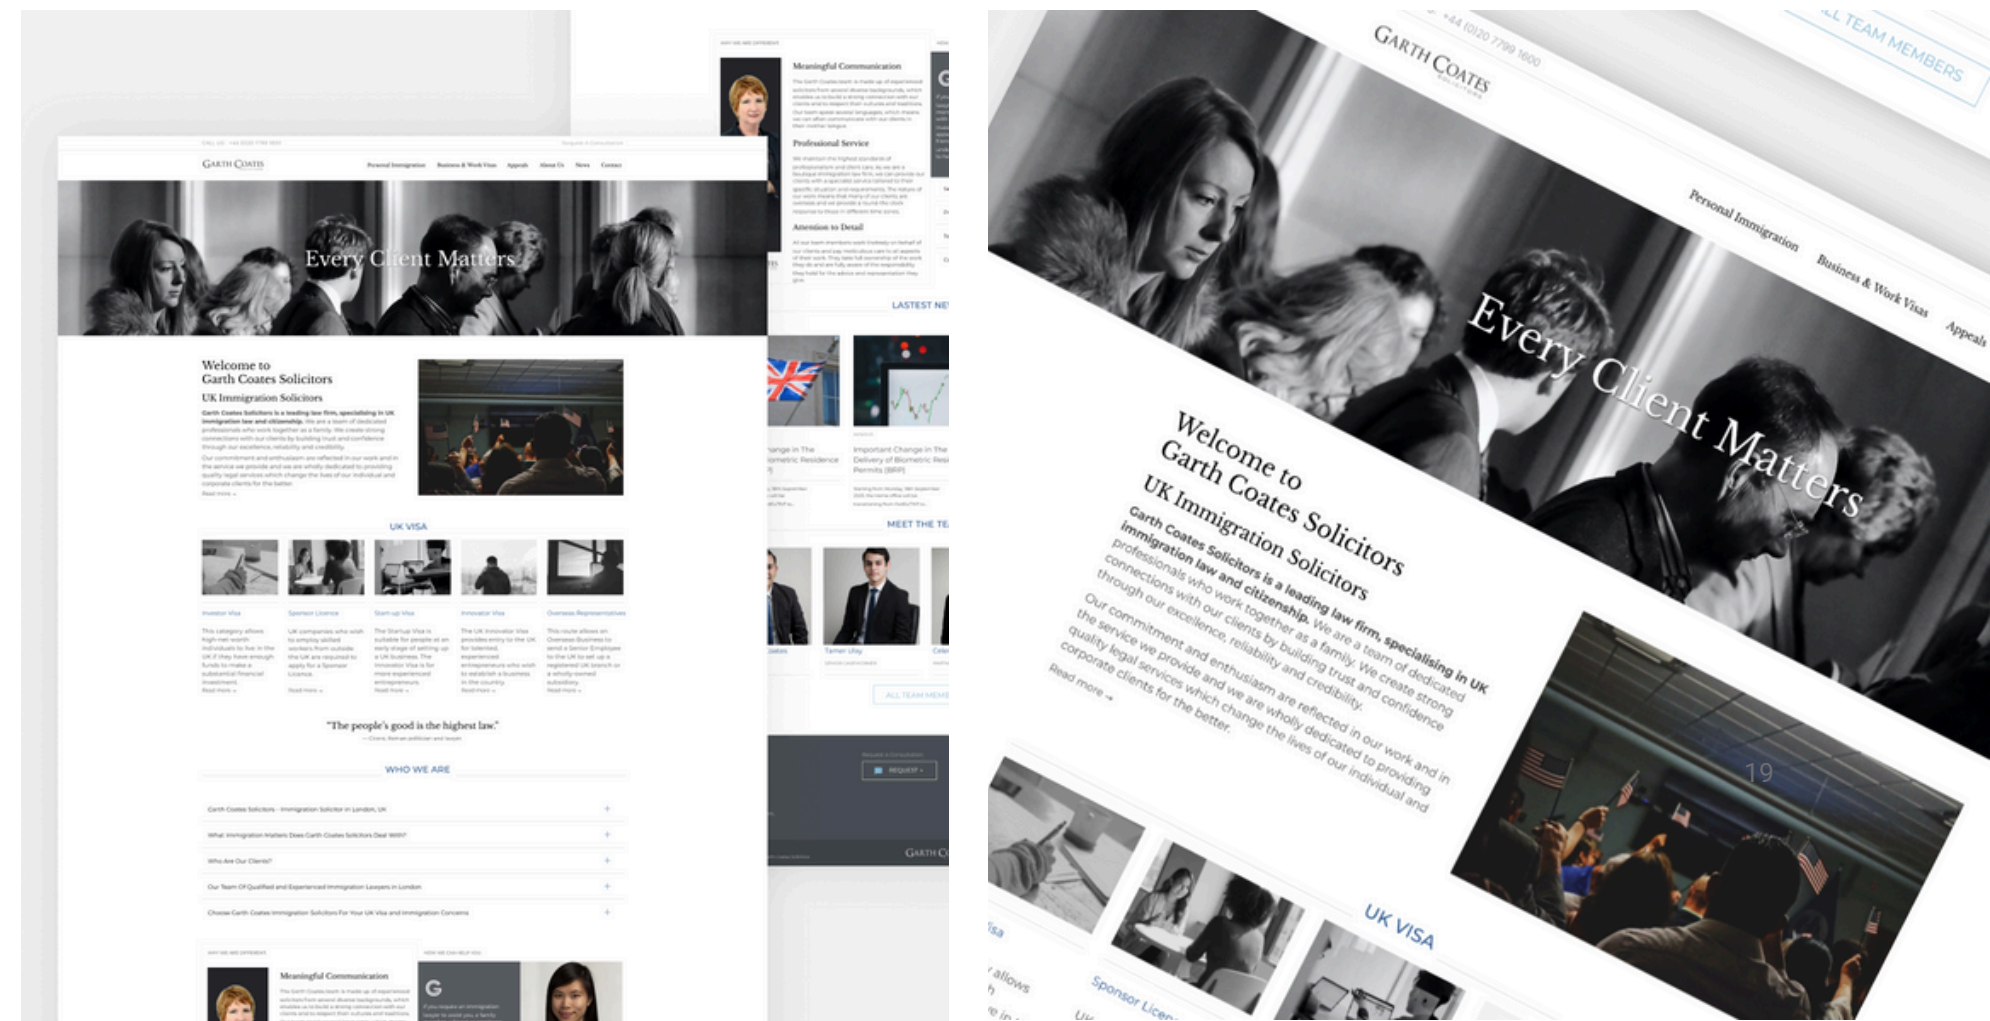

# Law Firm Website

Garth Coates

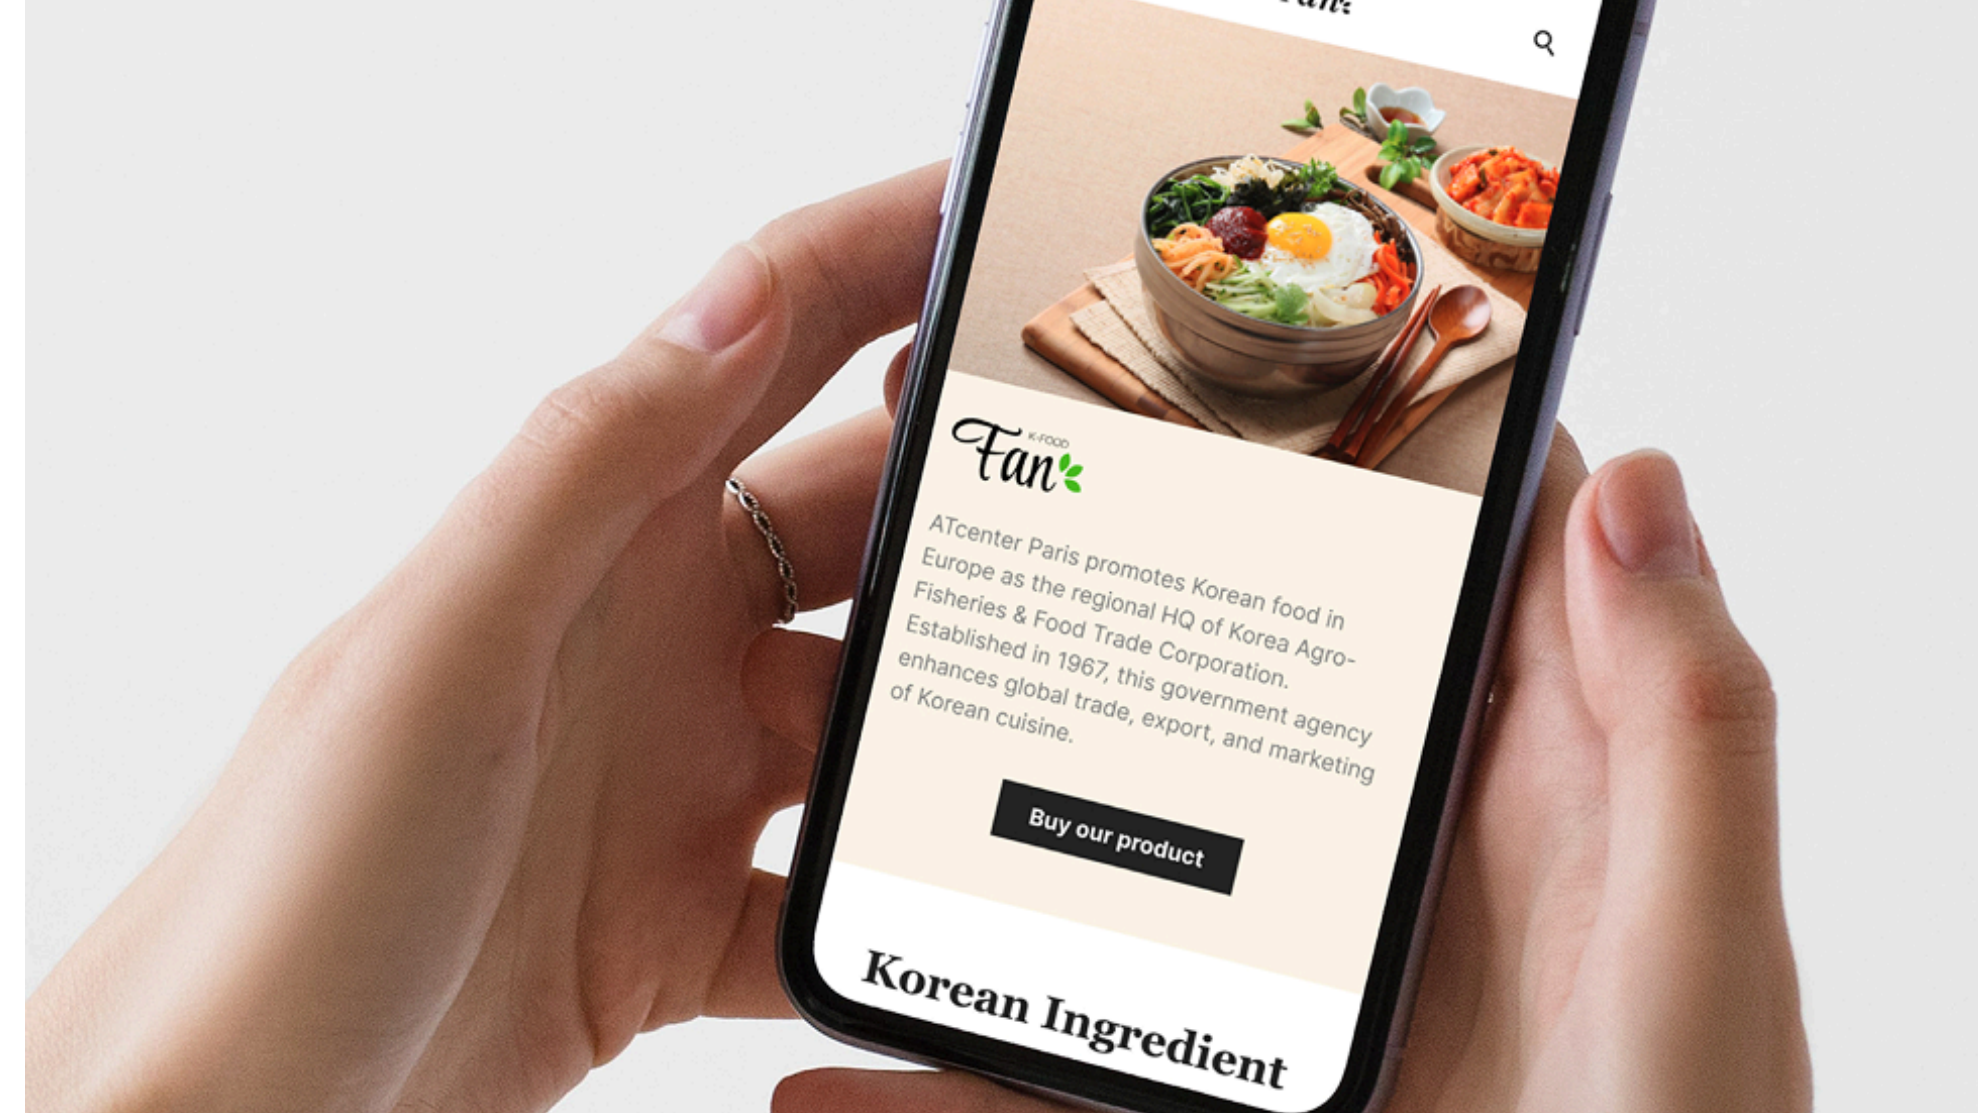

Garth Coates Solicitors is a distinguished law firm with exceptional expertise in UK immigration law and citizenship matters. This project aims to showcase the firm's key strengths and services, with a particular focus on providing tailored solutions for clients from Asian countries.

# Responsive Website

K-Food Fan

The 'K-Food' initiative is a web platform designed to introduce and promote Korea's diverse and captivating culinary culture across Europe. The project aims to provide information on Korean ingredients, recipes, and culinary heritage, serving as a bridge for those eager to experience Korean cuisine in Europe while facilitating connections with food-related businesses.

© Copyright Splenvo, 2025

# What Sets Us Apart?

Web accessibility - Now mandatory in Europe for public websites

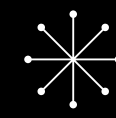

## Sustainability

Our well developed dynamic design system and a future-proof, component-based design approach ensuring consistency and scalability across all platforms.

## High-Quality Interactive Design

Static websites don't engage users. Our interaction-driven approach ensures users stay, explore, and convert.

## Scalable & Future-Ready UI

We build adaptable and modular UI systems that grow with your business, reducing long-term redesign costs.

## Long-Term Partnership, Not Just a Service

Many agencies complete a project and disappear. We don't. We provide ongoing support, ensuring your digital presence stays competitive.

## Ownership & Technical Independence

Unlike many agencies that keep you dependent on maintenance fees, we empower you with the knowledge and tools to manage your own website.

## Led by Senior Designers

Every project is guided by top-tier professionals with years of experience in UX/UI, ensuring both functionality and aesthetics are at their best.
